or performing technical work in the navy but simply to unite all specialists int

che corps, that is the line

"The present pay corps have battle
stations aboard ship already. They would
be more efficient in these duties if they
had line training. It is not proposed that
the officers of the present corps should
take up line duties, but that no new paymasters be appointed and that line officers hereafter perform both duties.

"The present construction corps is made
up from Naval Academy graduates. The
older ones would continue to perform
their present duties, while the younger
ones could do both.

"In the new line all officers would be one corps, that is the line

ones could do both.

"In the new line all officers would be him officers to begin with, and would then take up some specialty on shore in exactly the same manner that ordnance, engineering, electrical or torpedo specialties are now taken up. It is not at all the intent that each officer shall take up all specialthat each officer shall take up at special-ties, but that each officer shall take up at least one specialty. The gain will be in flexibility. It is easily seen that if the navy were made up of a number of corps, each of which could do its own work and none other, there would be no inter-changeability and there would be needed. a considerable increase in numbers to a

complish the same sum total of work. The Naval Architects finished yesterday afternoon their discussion of the papers epared by members in the assembly

"TRISTAN UND ISOLDE" SUNG. Olive Frenstad Rises to New Heights as

the Irish Princess "Tristan und Isolde" was sung at the Metropolitan Opera House last night. It was the initial Wagner representation of the season and the performance was attended by an audience of large size. It was a performance which might easily command more elaborate comment than it shall here receive. There were elements The masque of cities given under the of splendor in the representation and at direction and for the benefit of the City times it rose to extraordinary heights

The keynote of the evening was sounded had not Mme. Fremstad as Isolde taken The ballroom had been decorated by the opera into her hands as soon as the a committee of artists and in the corners | first act was fairly started. Her Isolde the preceding day, and in Brooklyn 2,998, English houses, around and about which be said with all possible emphasis that

Uncle John is 89 years old and every member of the forenoon with complaints. Their spokesman said he was Lawrence John is 89 years old and every member of the forenoon with complaints. Their spokesman said he was Lawrence took of 697 Dearborn street, Chicago, and such perfectly carrying tone.

Wile of the Japanese Consult-General, and made all the arrangements for the conduct of the booth before she sailed for home.

Having this splendid vocal equipment at her command she threw herself into the rôle with such an outpouring of dramatic eloquence that she fairly lifted

While only Mme. Matzenauer as Bran gane approached her in vocal skill the others contributed admirable sincerity and well planned studies to the general performance. Mme. Matzenauer's noble voice and dignified style were heard with great pleasure in Brangane's music. A new barytone, Hermann Weil, made his debut as Kurrenal, and proved to be a conscientious artist of respectable merits. Possibly he will prove more than this in

rossibly he will prove more than this in some other part.

Lambert Murphy, a young American tenor, sang the sailor's song creditably, and Mr. Witherspoon delivered himself sonorously of the lamentations of King Mark.

Mark.

No summary of the individual doings of the singers can convey a proper idea of the interest of the representation. Mr. Toscanini read the score superbly and his orchestra played with great beauty of tone and delicacy of shading. This splendid instrumental foundation was fitly nated with Mme. Fremstad's beautiful reatment of the heroine and was aided y Mme. Matzenauer's art. These were the three chief factors in an interpretation of Wagner's mighty love poen held an audience in rapt attention

33 Out of Every 100 School Boys are Flat-footed!

This is the recent statement of a prominent Public School Official, and doubtless an even greater proportion of arch weakness would be discovered among school girls.

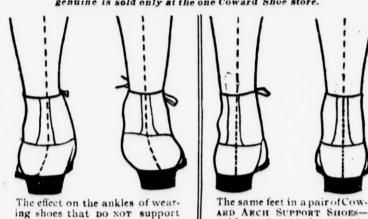

Among physiologists, it is generally admitted that "flatfoot" is a frequent cause of spinal trouble, as a broken arch throws the body in strained positions.

Orthopedists agree that proper mechanical support is the only effective remedy for falling archand "flat-foot." Leading surgeons endorse the COWARD ARCH SUPPORT SHOE as the one which is anatomically correct and helpful.

This shoe, made on the Coward Orthopedic Last, allows the foot to meet the ground in a natural manner. The extension heel and arch support, steady the ankle, raise the sagging muscles, and encourage correct walk

Wearing this Coward Shoe, holds the arch structure in its normal position and prevents and corrects "flat-foot.

The Coward is the original Arch Support Shoe. The public is cautioned against imitations. The genuine is sold only at the one Coward Shoe store.

Coward Arch Support Shoe and Coward Extension Heel, have been made by James S. Coward, in his Custom Department, for over 30 years.

JAMES S. COWARD 264-274 Greenwich St. NEW YORK Mail Orders Filled Sold Nowhere Else

A. R. PEACOCK BUYS BUILDING. Pittsburg Man Is a Protege of Andrew Carnegle.

Alexander R. Peacock of Pittsburg bought yesterday as an investment a loft building in Twenty-fifth street off Broadway valued at nearly \$500,000.
It is twelve stories high and is at 137 and 139. The building is bought from the Theodore Starrett Company, which built it about two years ago. Mr. Peacock gives in trade a small parcel of realty in Pittsburg, otherwise it is a cash transaction.

Pittsburg, otherwise it is a cash transaction.

Twenty years ago Mr. Peacock was a floorwalker in a Broadway dry goods store. Mrs. Andrew Carnegie on a shopping tour went into this store in search of a certain weave of Irish linen. The saleslady told Mrs. Carnegie that they did not carry that cloth any more. Mrs. Carnegie called for the floorwalker.

Mr. Peacock came and heard her. With-

out knowing her identity he told Mrs. Carnegie he would send to Europe and have the goods made. This pleased Mrs. Carnegie so much that she spoke to her husband about the young man. A few days later Mr. Carnege called on Mr. Peacock and induced him to go to Pittsburg. He became a member of the Carnegie Steel Company and is worth, it is estimated, more than \$20,000,000.

The transaction yesterday was arranged by James L. Libby of 165 Broadway and James B. Lawler of Pittsburg Carnegie so much that she spoke to her

ankle strain entirely relieved.

In To-morrow's

The automobile is to blame again. This time, the motor is blamed for a growing forgetfulness in women. Stores. restaurants and hotels are installing forces of protessional finders, just to keep track of the personal belongings of patrons. Even babies are left behind now and then. And all, or partly, because the automobile is encouraging the habit of hurry.

Did your children read the

Boys' and Girls' Page

last Sunday? Glance it over to-morrow, and if it meets your ideas of what such a page should be hand it to your children. They are pretty sure to take pleasure in it.

The Paris Servant Girl

is bright, hard working, capable and cheerful; robbers are always gay while robbing. The servant question hasn't been solved, even in Paris, but the intricacies of it in the French capital furnish a cheerful story and amusing pictures.

Farms for Women

The phrase is catching the feminine fancy as readily as is the similar phrase mentioning votes. A land show was held in New York to gain the attention of immigrants. And the women right here in town claimed it for their own.

Turkeys at \$50 and Upward

President Taft once ate a \$100 turkey. The general run of prices is not so high as that, but one doesn't have to stop at the market price unless he prefers to stop there. Some interesting details about the November festival are included in the story of the turkey.

Duck Shooting Has Its Dangers

as well as its joys. If you like the feel of a gun in your hand you will enjoy reading about the shooting at the Rondeau Reservation.

The Mysterious Eel The scientists have found out a good deal about these elongated fishes in the past generation or two, but there is still much to be learned.

New Turkey's Leaders

Here is an article on the men who are at the helm of the Ottoman destinies, accompanied by photographs showing what the men who supplanted the Sultan look

The Matriculation of a Family

Father, mother, sen and daughter have entered an Illinois college and will be students together for the next three years. Their ages range downward from 39 to 13.

London is Lidless

Soho is rejoicing and dozens of gambling houses have opened their doors. The district is one which Inspector Schmittberger viewed one night and exclaimed, "Gee! We wouldn't stand this for a minute in New York."

Elongate Your Eyes

Fashion decrees a touch of the Orient for the feminine face, and a lengthening of the eyes is an absolute necessity. Also they must be dark, deep and mysterious.

Tripoli a Disappointing Venture

The possibilities there are less than Italy imagined. Agriculture is the great field, and for that extensive irrigation projects are required. Correspondents who have looked the field over give discouraging accounts of the country which Italy has brought war

And besides, as always. there are the numerous departments which long have made niches in the hearts o, many for the
